

MyHEP

STUDENT AFFAIRS MANAGEMENT SYSTEM

One secure workspace connecting student self-service with authorized campus operations.

THE CHALLENGE

Student-affairs work spans records, aid, discipline, programs and campus services. Separate workflows can make information harder to maintain and follow up.

- Repeated data entry across service areas
- Need for clear, role-scoped access and traceable workflows

PROJECT OBJECTIVES

- Bring student-affairs services into one digital platform.
- Give students self-service tools and staff role-appropriate operations.
- Support consistent records, reporting and follow-up.

DESIGNED FOR CAMPUS ROLES

STUDENT

Use personal services, documents, programs and aid workflows.

LECTURER / STAFF

Support permitted program, attendance and reporting tasks.

SCOPED ADMIN

Manage scholarship, discipline and Student Affairs by scope.

SYSTEM ADMIN

Configure accounts, features and platform operations.

GUARD

Handle QR checkpoints and permitted student or laptop lookup.

CONNECTED STUDENT-AFFAIRS MODULES

01

STUDENT RECORDS & PROFILE

Student information, profile completion, household details and protected documents.

02

SCHOLARSHIP & WELFARE

Scholarship status, B40 TVET workflows, welfare records and announcements.

03

DISCIPLINE & FINES

Offense records, evidence, payment applications, rules and vehicle stickers.

04

PROGRAMS & ENGAGEMENT

Registration, attendance, questionnaires, participation points and certificates.

05

CAMPUS OPERATIONS

Student movement and QR checkpoints, plus JHEP laptop inventory and loans.

06

DOCUMENTS & INSIGHTS

Document centre, dashboards, reports, notifications and AI-assisted reporting.

HOW MYHEP WORKS

A role-scoped workflow from student request to campus action and reporting.
